Year B - Fourth Sunday of Lent
John 3:16-17

God sent his Son into the world that we might be saved through him.

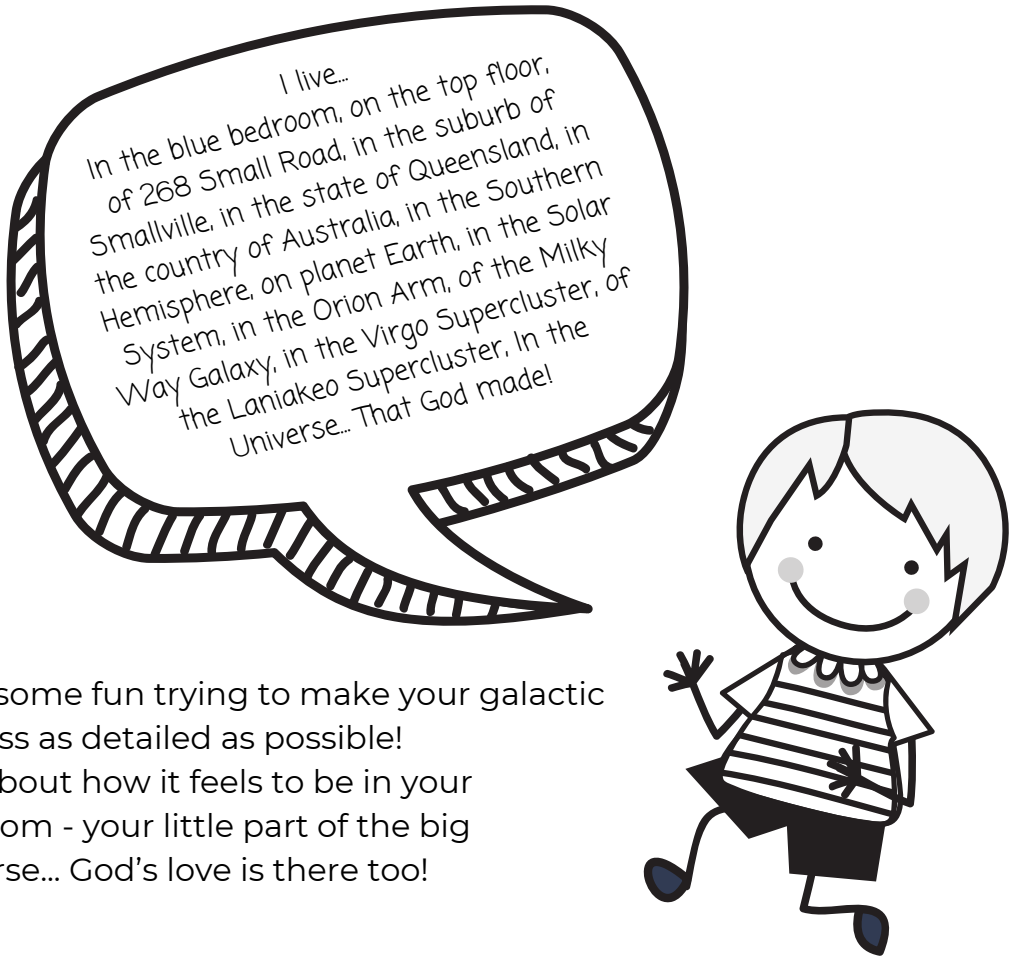
Jesus told Nicodemus:
"God loved the people of this world so much
that he gave his only Son,
so that everyone who has faith in him
will have eternal life and never really die.
God did not send his Son into the world to condemn its people.
He sent him to save them!"

Year B - Fourth Sunday of Lent
John 3:16-17
The biggest love of all

Message

- Begin by asking the children to see if they can remember their address.
- Usually our address goes from the smallest location, such as the number of our house, through to the largest location, such as the country we live in.
- Have some fun with this by adding smaller locations and even larger locations to your addresses. For example:

- The universe is such a big place! The bible reminds us that God made it by simply speaking the words... 'Let there be...'.
- God made everything and loves us!
- If God made everything then God's love must be bigger!
- Yet even though God's love is bigger than the universe, God's makes himself small enough, in the person of Jesus, to be with us and love you and me as individuals too!



Discussion

- Have some fun trying to make your galactic address as detailed as possible!
- Talk about how it feels to be in your bedroom - your little part of the big universe... God's love is there too!
