

Year C - 18th Sunday in Ordinary Time

Luke 12:16-21

Give thanks, give help

This activity is to help the children recognise the ways that they have been blessed in life and to give thanks for that, and in turn the way that they can bless others.

Facilitate a discussion with the children and for each thing they give thanks for ask them to come up with something they can do for others. Write them up on on a whiteboard or butchers paper.

You might notice that its much harder to come up with something to be thankful for than it is to think of something to do for others. That's understandable - it is easier to receive than it is to give. Discuss this with the children and explain that although helping others might be hard to do - it is good and absolutely worth the effort.

You might record this somewhere for all the children to see.
