

Year C - Exultation of the Cross

John 3:13-17

Matching the Cross

We see so many different depictions of the Cross today. All of them help us remember the great gift of the love Jesus gave to us when he died for us. Lets play a matching activity to help us learn some of the many different images of the Holy Cross we see in churches around the world!

You will need:

- Two print outs of the next page (cross images on the grid).
- Some scissors to cut out the individual images before the activity.
- A laminator if you'd like to have the cards laminated.

Instructions:

- This is a card matching memory game.
- Have all the cards flipped over so the blank side is facing up and the picture side is on the floor.
- One at a time get a child to flip over one card, then get them to choose a second card to flip over.
- If the cards match they get to stay on the picture side. If they don't match they have to flip them back over so the blank side is facing up.
- Then choose a different child to choose two cards to flip over and repeat the process until all the cards are matching!
