

Year C - The Nativity of the Lord (Christmas Day)

Luke 2:1-14

Stick Puppets

Instructions

- Using puppets can help children engage with the Christmas story by re-enacting what each person role in the nativity.
- You can choose to print out the outlines and ask the children to colour them in or use the coloured pages. We recommend printing them on card or on paper and laminating them before attaching paddle sticks to the back of them.
- Let the children play out the story of Christmas using the puppets. You could prompt them to explore the story further by asking questions like 'What do you think the shepherds did when they left the stable?' and allow them to play out these scenarios.
