

### Wind of the Holy Spirit fan

During Pentecost, the wind of the Holy Spirit filled the upper room where the disciples were gathered. Let's make some fans to represent the wind of the Holy Spirit moving in this room!

### You will need

- A fan template for each child (either in colour or B&W)
- Coloured pens/pencils (if using the B&W templates).
- Tape

### Instructions

- Give each child a template and have them colour it as they choose.
- Starting from one of the short edges of the paper, fold the page concertina style, all the way to the other end.
- Pinch the base of the fan and secure with tape.
- Open out the top of the fan to complete the craft.
- NB to make broader fans, use two templates per fan and tape them together on the short edge prior to folding.
