

Introduction

Following on from the idea of 'seeing' with the 'eyes of our hearts', create these fun heart characters.

What you need

- A copy of the heart template for each child.
- Strips of paper (for legs and arms)
- Google eyes.
- Marking pens.
- Glue
- Tape
- Scissors

Instructions

- Cut out the shapes required from the template.
- Fold the paper strips into accordions (two long strips for legs and two shorter ones for arms).
- Glue the legs and arms in place, followed by the small hearts in the place of the feet and hands.
- Finally, glue the eyes in place and draw in the mouth using the marking pens.
