

SCAVENGER HUNT

Creation is all around us and this place we call 'home' is also home to many other people, animals and plants.

During this Season of Creation, see how many of the people, animals and plants you can find evidence of. Some will be easy to spot but others you may have to look a bit harder! Perhaps you might only hear them or see evidence of their presence?

As you think about the other people, animals and plants that share your home, think about things you could do to make your shared home more wonderful for all!

Talk with your family about how to put some of your ideas into action!

Who shares your home?

Tick the box whenever you see, hear, or find evidence of this person, animal or plant around your home or neighbourhood.

IMPORTANT! Remember to look only - some of these things are not safe to touch!

(Note: this scavenger hunt incorporates elements local to South East Queensland and the Archdiocese of Brisbane.)

A neighbour walking a baby

☐

A neighbour sorting rubbish

☐

A neighbour exercising

☐

A neighbour at a bus stop
