

# Year A - 28th Sunday in Ordinary Time

## Matthew 22:1-10

### Greetings and Invitations

## Background

- A fun simple game to play with kids, helping them to interact and make choices in how they speak, listen and welcome others.

## Instructions

- Ask the children to walk around greeting each other.
- At first allow them to do this however they feel comfortable (probably with a handshake or a wave)
- Let them do this for 2 minutes.
- Encourage them to continue walking around the room, greeting different people in different ways each time.
- Ask the children to continue to walk around but this time ask them to create an action as they are walking.
- Once children all have a different action, ask them to continue to walk around and invite others to join their action.
- The children who invite the other first to join their action get to keep their action and the other child has to join in with them.
- Continue this with the children until only one or two actions remain.
