Year C - 3rd Sunday in Ordinary Time
Luke 4:14-21
Making Ancient Scrolls

Background

- A fun activity for children to make their own 'ancient' scrolls.

You will need

- Paper
- teabags/instant coffee and water
- paint brushes
- marker pens

Instructions

1. Lay out some newspaper or plastic cover to protect surfaces. In small cups mix your teabag/coffee (1/4tsp) with cold water.
2. Scrunch up the paper into a ball, then smooith it out again. The wrinkle will 'age' the paper. Then paint the paper so it is all covered in the brown water and leave to dry.
3. Once dry, the children can then write on the paper. You may want to use scriptures from the prophets of the Old Testament and decorate the pages.
4. When the paper is dry you can 'age' it even further by curling it's edges, adding small tears or carefully smouldering corners *(we suggest only allowing the adults to do this)*
